

New Beginnings Schools Foundation Academic Programs

Student achievement measures the amount of academic content a student learns in a determined amount of time. Each grade level has learning goals or instructional standards that educators are required to teach. Academic standards are the benchmarks of quality and excellence in education such as the rigor of curricula and the difficulty of examinations. New Beginnings Schools Foundation has chosen excellent standards based curricula and programs to advance student achievement. Assessments are provided through the test bank items of EAGLE provided from the LDOE and Achievement Network for ELA and Math in grades 2-10.

Tier 3 Intensive Interventions and Comprehensive Evaluation

Tier 2 Targeted In- Class Interventions

Tier 1 High-Quality Classroom Instruction, Screening, and Group Interventions

Tier 3 K-8

- **K-8 students receive 60 minutes of core curriculum in reading, supplemented by a mandated minimum of 45 minutes of intervention four times per week to ensure fidelity.**
- **K-8 students receive 60 minutes of core curriculum in mathematics supplemented by a mandated minimum of 45 minutes of intervention four times per week to ensure fidelity.**

Tier 3 High School

- **Interventions are provided for a minimum of 45 minutes a day in addition to the time for core instruction and are usually applied over a longer period of time (application of total intervention time should be several weeks or even months when there is evidence that the student has missed substantial instruction).**
- **An adjustment in the delivery of the curriculum through the intervention process can address the intervention needs of the large number of students and facilitate skill development. Grade-wide skill deficits require that students receive specified interventions by group or class rather than individually.**

Our schools may also offer tutoring, EOC Remediation, and Credit Recovery as needed to students in need.
